

To All Grove Seniors Village Housing Cooperative Ltd. Members

The attached 'Event Planning During Covid-19' form has been developed by the Board in an effort to assist members in planning any event on Village property during the Covid-19 measures instituted by Alberta Health.

Legislation in place provides significant penalties to individuals and property administrators for failure to follow the directives of Alberta Health to control the pandemic. Your Board has the responsibility on behalf of all members to ensure that we do not expose the Village to these onerous financial penalties and potential further liabilities should members become exposed to the virus through our activities. Village events are those open to other members and do not include those in your own unit which are compliant with Alberta Health directives.

With the move to Phase 2 of the relaunch strategy, some previously disallowed events can now be considered, and we can regain some of the socialization opportunities that we have not been able to enjoy for the past few months.

This form provides the information necessary for the Board and its Covid relaunch committee to process requests for social gatherings and to properly record event requests and those members responsible.

We wish to emphasize that these regulations were developed by Alberta Health and expert medical advisors for our protection as a vulnerable population and are not subject to negotiation or 'special circumstances'. We are classified as a vulnerable population community and must comply. Your continued cooperation is both appreciated and required.

Joe Acker, President

For the Board of the Grove Seniors Village Housing Cooperative Ltd.
